

# PORTABLE STACKING RACKS

## Dyna Stacking Racks

- Safe and secure stacking up to 5 units high.
- Utilize vertical storage space while using valuable floor space for production.
- Portable for easy set-up & in-plant storage.
- Cut handling time by moving more material with fewer moves.
- Rugged design prevents product damage.
- Side or end frames are available.

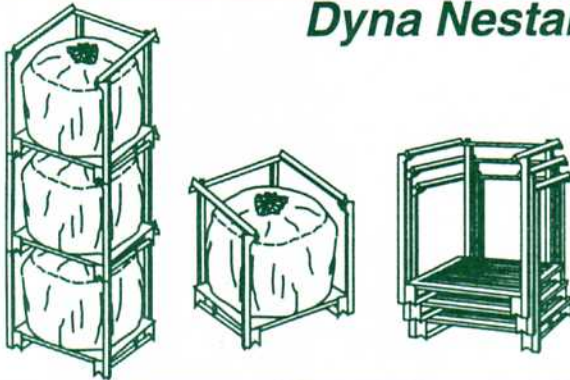

## Dyna Pallet Stacking Frames

- Stacking frame converts ordinary warehouse pallet into a rack.
- Requires little storage space when not in use.
- Stabilize unsecured loads.
- Supports thousands of pounds.

## Dyna Nestables – All-Welded Design

- Made of sturdy, rigid one-piece construction.
- Stacks crushables several bags high.
- Contain odd-shaped industrial bulk containers.
- Nest empty to save space when not in use.
